Calls answered 24/7

Capabilities

HVAC, COMMERCIAL

Rooftop units (RTUs) installation and service · Split systems, package units, multi-zone systems · Commercial ductwork fabrication and installation · Building automation and thermostat controls · Preventative maintenance programs · HVAC support for tenant build-outs · Mechanical system upgrades for offices, warehouses, retail spaces

HVAC, RESIDENTIAL

Furnace installation, repair, replacement · Air conditioner installation, repair, replacement · Heat pump systems · Ductwork installation and repair · Thermostat installation and relocation · Indoor air quality solutions (humidifiers, dehumidifiers, air cleaners) · Seasonal maintenance and tune-ups · Emergency HVAC service

ROOFING, COMMERCIAL

Flat roof installation and repair (EPDM, TPO, PVC) · Metal roofing systems · Roof coatings and restoration · Commercial leak detection · Preventative roof maintenance programs · Skylight installation and repair · Drainage system improvements

ROOFING, RESIDENTIAL

Full roof replacement · Roof repairs (shingles, leaks, storm damage) · Asphalt shingle roofing · Roof inspections and certifications · Gutter installation and repair · Attic ventilation improvements · Insurance claim support for storm damage

ROOFING, ADDITIONAL

Storm damage restoration · Emergency roof tarping · Fascia and soffit repair · Chimney flashing repair · Roof ventilation upgrades · Ice dam prevention · Annual roof health reports

Specialty and mission-critical systems

BARD units. Wall-mount and self-contained BARD equipment, installed and serviced.

Northern Air units. Northern Air equipment, installed and serviced.

Marvair units. Marvair ComPac wall-mount equipment on modular buildings, installed and serviced.

HVAC for mobile and modular trailers. Medical trailers, temporary office trailers, and mobile imaging units including mobile MRI and mobile surgical units.

Cooling for data centers and server rooms. Dedicated cooling for server rooms and data floors, where a room past its alarm threshold is an emergency rather than a comfort call.

Environmental control units for cellular communication towers. ECUs on unmanned tower sites, keeping the radios in the shelter inside the range they are rated for.

Service area

Indianapolis and surrounding counties across central Indiana.

Marion, Hamilton, Hendricks, Shelby, Johnson, Morgan, and Hancock counties, Indiana. Extended coverage in Delaware County (Muncie). One dispatch number covers every site.

Response and hours

We get a tech on site in about 2 hours. That is a typical time, not a guarantee.

Calls answered 24 hours a day, 7 days a week. Office hours Monday to Friday, 9:00 AM to 5:00 PM.
